

**SPENCER MAY**

Spencer May has been a full time "live" caricaturist and entertainer since he gave up the day job back in '96. Since then he has delighted audiences and celebs all over the world with his hilarious quick-fire portraits, working at celebrity parties, weddings, corporate events, birthdays, and just about any kind of party you can think of. It's important to remember that his portraits are lightning quick, individual, lifelike and accurate, not cruel, and of course FUNNY!

They are done using black ink in a "brush-pen" on white shiny card, for speed and dramatic effect. You can watch the picture unfold in front of your eyes, as Spencer doesn't mind how many people watch him. ("I can take the pressure", he says.)

Spencer has vast experience in his field and promises 100% happiness. Years of positive feedback from his clients have made Spencer a firm favourite with event organisers all over the world.
